## Rejuvenation

Dance embodies one of our most primal relationships to the universe. Dance is a part of the rich cultural heritage of India. Its themes are derived from mythology, legends, classical literature, everyday life and nature. It is a powerful medium to express one's values, thoughts, and aspirations about the lives we live and the world in which we live. The art of dance uses movement to communicate meaning about the human experience. A dance is a speech that lacks words. It tells a story that will last with all who see it till the end of time.

Rejuvenation is a group dance event serving the same purpose. It gives you the platform to voice your opinion on social issues through your performance. The goal of the standards is to inspire the youth to explore the many facets of dance.
