Workshop – “Disaster Management” :-

A number of natural disasters like drought, floods, earthquakes, cyclones have hit India hard in the recent past. It is essential to prevent future disasters by adopting certain serious measures and implement them at an earliest.

EFICOR who has years of experience and expertise in the field of :-

- understanding disasters
- response
- rehabilitation
- restoration (focusing on Disaster Risk Reduction)

Key Points:

- Practical demonstration by way of tools.
- Quick tips and techniques discussions. Question and answer discussion.
- Which tools can be used to leverage access in case of a disaster?
- How information may be used to assess weaknesses and subsequently launch on attack against a disaster.

Program Benefits & Highlights:

- Make yourself and your relatives aware of Disaster Management.
- Hands on Demonstrations of Disaster Management Techniques & Tools.
- PowerPoint Presentation, Live Demos, Interactive Question & Answer sessions and comprehensive reading material.
- Get innovative ideas on tackling disasters.
- Get to learn about :-
 - **Disaster Prevention** :- These are activities designed to provide permanent protection from disasters. They offer guiding principles, priorities for action, and practical means for achieving disaster resilience for vulnerable communities.
 - **Disaster Preparedness** :- Preparedness is the main way of reducing the impact of disasters. Community-based preparedness and management should be a high priority in physical therapy practice management.
 - **Disaster Relief** :- Relief activities include rescue, relocation, providing food and water, preventing disease and disability, repairing vital services such as telecommunications and transport, providing temporary shelter and emergency health care.
 - **Disaster Recovery** :- Recovery activities include rebuilding infrastructure, health care and rehabilitation.
